Network Integration Services, Inc. Selected for Membership in the EMC Authorized Services Network

Extended Relationship Allows Network Integration Services, Inc. to Provide CLARiiON Professional Services as part of their Growing Expanding Focus on IT Services

Lenexa, Kansas – January, 2005 – Network Integration Services, Inc. today announced it has become a member of the EMC Authorized Services Network. As a member, Network Integration Services, Inc. has been trained and qualified by EMC to deliver customers a range of information storage networking professional services for the CLARiiON platform. From initial storage design to complete storage architecture implementations, Network Integration Services, Inc. provides the storage networking talent necessary to expertly integrate EMC storage solutions that deliver increased levels of business value.

Senior Vice President of Network Integration Services, Bob Jewell, said, “This certification is a continuation of NIS’s commitment to customer service and complete customer satisfaction. This program allows us to meet our customer’s demands for storage services and enables us to deliver the very best quality of service to ensure the success of our customers.”

As an EMC Authorized Services Network partner, Network Integration Services, Inc. personnel are trained and supported by EMC to provide the industry’s finest storage networking services for EMC products. With customers rapidly adopting and deploying automated networked storage solutions, the EMC Authorized Services Network provides a service delivery infrastructure to meet this growing demand. Through this partnership, Network Integration Services, Inc. will be able to expand and strengthen its marketable service offerings, while their clients enjoy the added value of enhanced storage networking services and solutions.

Vice President of EMC’s Technology Solutions, Derrell James, said, “As a member of the EMC Authorized Services Network, Network Integration Services, Inc. has undergone extensive EMC Proven Professional certification and training, demonstrating the highest levels of proficiency in providing professional services for EMC-based storage networking solutions. The program’s rigorous partner selection process, training, monitoring and support will ensure that their customers receive the same level of excellent service they’ve come to expect from EMC.”

About Network Integration Services

Network Integration Services (NIS) is a full-service provider of integrated engineering solutions that extend beyond the single-box approach and create measurable results for designing, upgrading and expanding enterprise networks.

“It is the goal of NIS to provide clients with the ‘best of breed’ solutions,” said Bob Jewell. “EMC is clearly the ‘best of breed’ in the information storage technology area.”

About EMC

EMC Corporation (NYSE: EMC) is the world leader in information storage systems, software, networks and services, providing automated networked storage solutions to help organizations extract the maximum value from their information, at the lowest total cost, across every point in the information lifecycle.
